

CELEBRATING 50 YEARS

- THEN AND NOW -

On Dhanteras this year, we enter our 50th Year. Our journey has been extremely fulfilling and interesting and we thought we should share this with you.

2017
NABL for our pathology laboratory and installation of the GeneXpert for rapid TB testing with PCR

2018

- ◆ The first weight bearing standing cone beam CT from Carestream in India
- ◆ Accredited by Maharashtra University of Health Sciences (MUHS) for radiology fellowships in body imaging

Our Strengths

We started the concept of subspecialty reporting and even today are perhaps among a handful of radiology practices, including hospitals and teaching institutes that have dedicated subspecialty radiologists for different organs and systems.

Our doctors:

- ◆ Dr. G. R. Jankharia looks after x-ray radiology and barium studies.
- ◆ Dr. Bhavin Jankharia looks after cardiothoracic and bone imaging and interventional CT procedures including biopsies and radiofrequency ablation.
- ◆ Dr. Bijal Jankharia is a nationally renowned breast imaging radiologist.
- ◆ Dr. Saba Shaikh is a specialist in interventional ultrasound including varicose vein ablation.
- ◆ Dr. Vaishali Nimbkar handles chest and cardiac imaging including body MRI
- ◆ Dr. Shilpa Sankhe is a renowned neuroradiologist.
- ◆ Dr. Nusrat Shaikh is a well-respected nuclear medicine specialist looking after the PET/CT.
- ◆ Dr. Khushboo Pilania is a consultant focussing on musculoskeletal imaging and MRI.
- ◆ Dr. Prachi Shah is part of our USG team
- ◆ Dr. Aamish Kazi looks after our MRI services
- ◆ Dr. Parang Sanghavi looks after our CT scan services.
- ◆ Dr. Prachi Chaubal heads our dental radiology services.

In addition

- ◆ Dr. Anuradha Shah heads our health check-up services.
- ◆ Dr. Sheetal Mane and Dr. Suwarna Pawar head our pathology and microbiology services respectively

None of this would have been possible without your help and support.

We thank you all

- ✦ Our doctors who devote their time and energy to us
- ✦ Our staff that has been with us through thick and thin
- ✦ The medical community that has supported us whole-heartedly.
- ✦ Our loyal patients and people who think only of us when it comes to radiology and now pathology testing
